For course content questions, contact: [mutcdsupp@dot.ca.gov](mailto:mutcdsupp@dot.ca.gov)

## **Description:**

This class will familiarize participants with the new format, applicability and compliance aspects of the California MUTCD. The class will also expose attendees to new policies and changes that became official on September 26, 2006. It will emphasize application areas of the California MUTCD that often pose difficulties or have significant professional differences and also where California practice differs substantially from Federal practices.

Some recently adopted policies per CHP's Older Californian Traffic Safety Task Force related to older drivers and pedestrians will be highlighted. The class will cover some fundamental and key concepts of all of the individual parts of the California MUTCD to encourage their use generally as a good practice.

Participants are encouraged to submit any questions or key issues they wish to be covered in this class in advance to [mutcdsupp@dot.ca.gov](mailto:mutcdsupp@dot.ca.gov)
